Reasons for Allowance

Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

In accordance with discussions made in a telephone interview with the inventor's representative, Mr. Paul Daebeler on October 14, 2005, the following changes have been made:

- a. In claim 1, line 5, insert -- directly -- immediately after the word provided.
- b. In claim 15, line 5, insert -- directly -- immediately after the word provided.
- c. In claim 42, line 5, insert -- directly -- immediately after the word provided.

Claims 1-44 are allowed for the following reasons:

The instant application is deemed to be directed to a non-obvious improvement over the invention patented in Pat. No. 6,567,217 to Kowarz et al.

Independent claims 1, 15 and 42 are allowed because the prior art of record, taken alone or in combination, fails to disclose or render obvious a diffraction device(s) provided directly on the incident side(s) of the light separation/integration device in combination with the rest of the limitations of the base claim.

Claims 2-14 and 32-36; 16-31 and 37-41; and 43 depend on claims 1, 15 and 42 respectively and therefore they are also allowed.

Kowarz describes an image forming system with a light source, light separation/integration device (X-cube) and diffraction device. The reference is silent with respect to the diffraction device provided directly on the light separation/integration device.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
